

It's Who We Are.

August 17, 2012

I am Susan Frels, Senior Vice President and Regional Retail Manager at TrustTexas Bank. I am writing this letter of recommendation for Angela Smith.

Angela has been with TrustTexas Bank since October 2009. Angela was a student at Texas State University and was looking for part-time work. TrustTexas was in the process of opening a new branch in Kyle, Texas and was looking for part-time tellers. I was closely involved in the interviewing, hiring, and teller training process for Angela. After graduation from Texas State in May 2010, Angela was hired on full time at TrustTexas before returning back to part-time in February 2012 to accept an GIS Specialist internship.

Angela has been a valued and respected employee at TrustTexas Bank. Even though Angela had no previous banking experience and most of her tenure has been part-time, she has mastered every task assigned to her. As her supervisor and trainer since October 2009, I would highly recommend Angela Smith for employment with your company.

Angela is very organized, self motivated, and detailed orientated. Angela has been instrumental in creating a training program for TrustTexas Bank and handles the training of new hires at the Kyle branch. She has assisted out the marketing department and loan department at the corporate level with several different projects. After becoming a full time employee after graduation, Angela was named Assistant Branch Manager due to the high quality of her job performance.

If you have any questions or concerns, I would be more than happy to visit with you in regards to Angela's qualifications.

Sincerely

Susan Frels
